## To Whom It May Concern

I am writing to support Prof. Marek Babjuk's application for promotion to Dean of the 2<sup>nd</sup> Faculty of Medicine, Charles University in Prague.

As one of the founders of EUREP, which has taken place annually in Prague since 2002 and is the most important educational program for young, European urologists, I got to know Dr. Babjuk as one of the most dedicated teachers and supporters of this Pan-European educational activity. As a Prague native his support was instrumental for the success of EUREP.

In 2015, Prof. Marek Babjuk, joined the OMI/ESU Master Class in Urology as a faculty member. Each faculty member is graded by the fellows and he received consistently highest marks.

Over the past years in my position as CEO of the Open Medical Institute and through my affiliation with the European School of Urology, I have seen him grow into a motivated teacher, dedicated clinician, and a respected scientist, producing sustainable and high-quality research in the field of urology.

I wholeheartedly believe, and his record clearly shows, that Prof. Babjuk deserves to be promoted to Dean of the 2<sup>nd</sup> Faculty of Medicine. Due to his worldwide outstanding reputation he would be a most valuable asset for the leadership and future development of the 2<sup>nd</sup> Faculty of Medicine at Charles University, and I recommend Prof. Marek Babjuk without reservations.

Please feel free to contact me at +43 664 3412309 or [w.aulitzky@openmedicalinstitute.org](mailto:w.aulitzky@openmedicalinstitute.org) if you need any additional information.

Sincerely,

Wolfgang Aulitzky, MD  
CEO, Open Medical Institute
